Jobs Work! Grow Your Business, Save a Life – One of the best recovery tools for addiction is a job.
The Substance Use Recovery and Workplace Safety Program can help. In partnership with Governor DeWine’s RecoveryOhio initiative and brought to you by your local Alcohol, Drug Addiction and Mental Health board and the Ohio Bureau of Workers’ Compensation, this program reimburses employers for:

- Development and legal review of employer policies and procedures about substance use issues.
- Training for employees to understand substance use and their employer’s related policies.
- Training to equip supervisors and managers to better manage employees in recovery.
- Drug testing for prospective and current employees for employers with recovery-friendly “second chance” testing policies.

The nation’s addiction epidemic touches us all, including the business community.

Employers have jobs to fill but hesitate to hire workers with a drug-use history.

Workers recovering from addiction want to work but aren’t given the chance.

Other workers might be addicted but go undetected, putting workplace safety at risk.

Workforce toll

In a survey of more than 3,200 businesses and nearly 1,500 community leaders, the Ohio Chamber of Commerce found more than half are suffering consequences of substance misuse, including absenteeism, decreased productivity, and shortage of workers.
